## DANIELA G

Daniela G was born in Germany and completed her school education in the local area, which allowed her to pursue higher education. She studied design but always remained passionate about music. At the young age of three, Daniela G received her first violin, igniting a lifelong passion for the instrument.

On her journey to becoming a professional musician, Daniela G has enchanted audiences with the sound of her violin in numerous concerts and arrangements.

To expand her skills, Daniela G decided to break away from her predetermined path as a classical violinist and began improvising and composing to modern beats and rhythms.
